

A year with a difference I'm sure you will agree  
As lockdown continued Our family and friends we couldn't see  
Gave us time to reflect, and learn a new skill  
A recycled rug was created to be such a thrill  
My rug was created from a pile of old clothes  
As a reminder of lockdown and what I hold close  
My family and friends I miss them so much  
We must use the phone so not to lose touch  
The rainbow was crafted to remind us of Love  
Along with a promise sent from above  
My cross is my rock which I did Inherit  
Hope, Love and Joy are all contained in it.  
A vaccine was developed and gives us all Hope  
No matter our colour, race or our wealth  
Free for us all, we just need to accept for the sake of our health  
Then an end to this new normal before we're out of our depth.  
Does the vaccine to you Make you reflect on Our Lord  
He died on the cross to give us all Hope  
No matter what our colour race or our wealth  
His forgiveness is free, we just need to accept for the sake of our soul  
So as you reflect, as covid counts now the cost  
As the death toll passes 100,000 lives, What a loss  
Remember the promise of the rainbow and cross  
There yours to inherit then your soul won't be lost
